Bunnings will be the first building in Brisbane's newest Industrial Estate 

Approvals are now in place and construction has started on the site with plans to open the centre in February next year.

This Bunnings Trade Centre is being constructed alongside the Estate's infrastructure with these Services and Council requirements being managed within the Project Team.

FEATURES:

- Large open span design maximizes storage whilst maintaining cost effectiveness

BENEFITS:

- Designed around alternative fire solutions to achieve cost effective construction techniques whilst maximizing the buildings useable life.
- Construction programme integrate client fitout to allow for operation at base build practical completion.
